

## **8 Things You Can Do Today for Abortion Access in PA (with thanks to Faith Choice Ohio)**

1. Resist – Be loud & proud about your support for abortion. Say the word abortion (not other “code words” or euphemisms) and make your meaning crystal clear for everyone to hear.

2. Support local orgs – state-based organizations do this work already & they can help you not duplicate efforts. Check out [Pennsylvania Religious Coalition for Reproductive Justice \(parcrj.org\)](http://parcrj.org) and [\(20+\) Pennsylvania Religious Coalition for Reproductive Justice, Incorporated | Facebook](#) for more info.

3. Donate to abortion funds – go to [NNAF.org](http://NNAF.org) to connect with local abortion funds who are helping people in your area access abortion.

4. Get trained up – take a training on self-managed abortion, moral messaging, or religion & repro from Faith Choice Ohio. Check out [Faith Choice Ohio](#) for more info.

5. Tell your stories – tell your own stories about abortion, birth control, and parenthood so that people know why you’re so passionate about being in control of your reproductive choices

6. Organize intersectionally – this fight is about women, femmes, transgender persons, LGBTQ+ families, BIPOC communities, Appalachians, & more. Include everybody.

7. Find & give encouragement – this is going to be a long fight, and it will take everything we have physically, emotionally, and spiritually to stay in the fight. Keep connected to community.

8. Sign up for more information. Scan the QR code with your phone & sign up for email updates today.
